

February 6, 2018

- Fire House Update: Attended the construction update meeting on 1-25. The roofing continues contingent upon weather. Painting and ceiling grid have been started. IT and locution coordination continue. The monument sign has been ordered. The project is on schedule.
- Market Street Update: The Street was dedicated on January 24th with a good turnout including lunch afterwards. This road is the road to public safety and economic development. We are awaiting the final cost numbers from the Montgomery County Transportation Improvement District.
- Researching vendors to conduct a citizen survey. Also suggesting City Council consider a retreat.
- Contacted MVRPC to move forward with our request for qualifications for our City strategic plan.
- Coordinated and convened a storm water work session for Council which was held on January 30th with a presentation by Montgomery County Soil and Water. It was a huge success with standing room only. A second meeting will be held near the end of February and is in the planning process.
- Attended Ohio Township Association winter conference and earned continuing education credit for certification with the Ohio Treasurer's Center for Public Investment Management.
- Met with the Law Director, the Brookville Economic Development Coordinator and a landowner to discuss possible economic development projects.
- Attended a MVRPC sponsor meeting to discuss and approve our Surface Transportation Program application for the paving of S. Wolf Creek in 2019. We have been recommended for funding and our application will be forwarded to the Technical Advisory Committee in February and, if approved, will be forward to the full Board of the Miami Valley Regional Planning Commission for final approval.
- Scheduled meeting to discuss needed repairs for the Community Theatre.
- Attended two Perry Township Trustee meetings to advise that the Brookville City Council had passed a motion requesting the fire levy be placed on the May primary ballot with support for the levy by the City Council. Perry Township has taken action and has placed a 1.5 mill fire/EMS levy on the May ballot. Clay Township has placed a 3.5 mill fire/EMS levy on the May ballot.
- Met with local business owner to discuss his flooding concerns.
- Attended the Dayton Area Managers luncheon in Tipp City. Paul Gruner, the Montgomery County Engineer, was the guest speaker. He presented on the need for bridge funding in the County and the license fee.
- Attended the Brookville business breakfast with a presentation by Randy Chavalley, ODOT District 7 Deputy Director, as the guest speaker. He presented and answered questions on the Arlington Road bridge closure over I-70. The closure will begin between the dates of March 1 and March 16 of this year.

- Spoke at the Chamber of Commerce breakfast on the need to reinvest in our community and that current capital improvement investment is consistent with past policy. Also advised, if anyone has any questions or concerns regarding the bridge closing, they should contact the City for more information.
- Finalized equipment purchases for the Ohio Safety Grant for the new firehouse.
- Commenced with the wet well rehabilitation project at the WWTP.

The new Market Street Extension—the Street to Somewhere. The Street to Public Safety and Economic Development.

Respectfully submitted,

Gary Burkholder  
City Manager
